

VACANCY NOTICE

SEEKING TEACHER OF SECONDARY AGRICULTURAL EDUCATION

Our rapidly growing urban high school program of agricultural education is seeking additional teachers of both the animals and plant sciences. The department currently has eight full-time teachers of agriculture and boasts a comprehensive curriculum and excellent teaching facilities encompassing all aspects of the field. We maintain a four-acre land laboratory complete with animal barns, greenhouses, field crops, an orchard, and a plant nursery, as well as an extensive agricultural mechanics shop.

Interested individuals should contact:
